## Profile Summary

---

- Self-motivated and hard working with skills in JAVA, HTML, CSS, JavaScript, SQL, React, Node, MongoDB. Successful completion of diverse projects, showcasing proficiency in Object-Oriented Programming, Data Structures, Algorithms, DBMS, Machine Learning, and Operating Systems
- Effective problem solver with strong communication skills, adept at handling LeetCode and GeeksforGeeks challenges. Fluent in Hindi and English, seeking opportunities to leverage technical expertise and collaborate in a dynamic environment.

## Education

---

### Jawaharlal Nehru University New Delhi | 2022-24

Master of Computer Applications; 6.7/9.0 C.G.P.A.

### A. N College, Patna, Bihar | 2015-17

Intermediate; 76.2%

### Patna Science College, Patna, Bihar | 2018-21

B.Sc(H) in Computer Applications; 79.83%

### Cambridge Public School, NaubatPur, Patna | 2013-15

Matriculation; 10 C.G.P.A.

## Projects

---

### DISHDELIGHT- FOOD DELIVERY PLATFORM | REACT | NODE | Express | MongoDB

- Developed a full-stack food delivery application as a final project for the MCA course at Jawaharlal Nehru University, Delhi, completed in May 2024.
- Technologies Used: React, Node.js, Express, MongoDB, Mongoose, Google Maps API, JWT, Node mailer.
- Designed and developed the server-side components with Node.js and Express.js, ensuring efficient communication with the MongoDB database.
- Implemented CRUD operations (Create, Read, Update, Delete) for managing food items using Node.js, Express, and MongoDB.
- **Project Link** - Food-Delivery-platform-Food-app [🔗](#)
- **Live Demo** - Food App [🔗](#)

### PORTFOLIO WEBSITE | HTML | CSS | JavaScript |

- Developed a sophisticated Personal Portfolio website using HTML, CSS, and JavaScript, incorporating responsive design and Seamless user experience.
- **Project Link** - Portfolio\_Websites [🔗](#)
- **Live Demo** - Portfolio [🔗](#)

### Weather-IO - Location Search Web Application | JavaScript | API

- Developed a location search web application using modern JavaScript and modular coding practices.
- Designed an efficient user interface for exploring and retrieving location-based information, including real-time weather updates.
- **Project Link**- Real\_time\_Weather\_app [🔗](#)
- **Live Demo** - weather-io [🔗](#)

## Skills

---

- **Programming Languages:** JAVA, HTML, CSS, JavaScript, SQL, Reacts, Node, Express
- **Developer Tools:** Visual Studio, GitHub, MySQL, MongoDB-Atlas, Postman, Vercel, Render.
- **Courses:** Object-Oriented Programming, Data Structures and Algorithms, DBMS, OS, CA, Computer Networks, Machine learning
- **Language:** Hindi (Native), English (Professional).
- **Soft skills:** Effective Communication, Analytical Problem Solving, Adaptability to new Technologies, Team collaboration and Time management.

## Achievements and Position of Responsibility

---

- **AIR 18** in JNU Entrance Exam 2022 session
- **AIR 98** IN CUET PG ENTRANCE EXAM 2022 SESSION
- **MaharashtraCET(2021)** : MCA entrance 99.84 percentile.
- Secured under 100 ranks in state board in Intermediate 2017

## Coding Profile

---

- I have solved more than 300 questions on **Leetcode** [↗](#).
- I have solved more than 100 questions on **GeeksforGeeks** [↗](#)
